

MR1035-1438  
Appln. No. 10/814,128  
Reply to Office Action dated 3/12/2004

REMARKS/ARGUMENTS

This case has been reviewed and analyzed in view of the Official Action dated 3 December 2004. In the Official Action, the Office of Patent Publication/Publishing Division stated that Figs. 4(a)-4(d) are contained in the Drawings but are not listed in the Brief Description of the Drawings in the Specification. The subject Figures are schematic diagrams of the invention described in the Specification. Thus, the sentence in the Brief Description of the Drawings directed to schematic diagrams was amended to include Figs. 4(a)-4(d).

The changes made to the Specification are to bring to consistency the Drawings with the Specification and are made only to the form of the Specification and not to the subject matter thereof. As such, no new matter has been introduced to the Application by the changes.

It is believed that the inconsistencies in the subject patent application have been corrected and that the allowed application may now proceed to publishing.

Respectfully submitted,
